

```
cape.pop <- arapat[ arapat$Species=="Cape", "WNT" ]  
null.ae <- rarefaction( cape.pop, mode="Ae", size=36 )  
mean(null.ae)  
## [1] 1.312669
```

I'm over
here!

```
cape.pop <- arapat[ arapat$Species=="Cape", "WNT"]  
null.ae <- rarefaction( cape.pop, mode="Ae", size=36 )  
mean(null.ae)  
## [1] 1.312669
```

Genotypic Diversity

Diversity can also be examined in terms of how alleles are allocated into genotypes.
